

# Hotel Maria La Gorda

## Hotel Maria La Gorda \*\*\* Description

Located in the Guanacahabibes Biosphere Reserve, in eastern Cuba, is María la Gorda (Mary the Fat), where divers can enjoy crystal-clear and warm waters in 39 diving spots.

Experts consider that the seabed at María la Gorda is among the top ten places in Latin America, due to its abundant marine life and extraordinarily beautiful corals.

This Diving Center has 50 sites of high level diving, some are still not named, all of them are less than 1 hour cruise, some at even 5 minutes away. Generally, they are all much more alike, many are suitable for wall diving, but each one has its particular charm. We suggest to you El Cabezón de Ludo, El Salón de María, El Almirante y Yemaya, and the second diving of the day Acuario, El Ancla de Francois and El Jardín de la Gorgonia.

Since the diving site is very near, you can do the first dive in the morning, at about 09:00 get back to the Villa, and then second dive in the afternoon, at about 15:00. As a protection measure, the Diving Center makes sure that divers cannot go deeper than 30 meters (98 feet) and not more than 40 minutes dive.

## Hotel Facilities

Beach Diving

- Bar
- TV Room
- Garden
- Parking
- Restaurant
